THE
FRIGHTENING
COST OF THE
SUGAR PROGRAM!

*Support the
Sugar Reform Act of 2013
(S.345)*

The U.S. sugar program has cost American consumers and businesses as much as **\$14 billion in hidden food taxes since 2008.**

The federal government has **lost more than \$250 million** on the sugar program since July 2013.

Three American sugar-using jobs are eliminated for each sugar-growing or processing job protected by the sugar program.

127,000 U.S. jobs have been lost in sugar-using industries between 1997 and 2011.
