## Sugar-Using Industries Employ Thousands of Nevadans, Whose Jobs Are at Risk Because of Current Sugar Program

The current federal sugar program only benefits one small segment of the U.S. economy – sugar growers and processors, of which there are **zero in Nevada**. Meanwhile, the program costs consumers an average of \$3 billion annually and puts at risk approximately 600,000 American jobs in sugar-using industries, including **up to approximately 2,600 in Nevada**.

**Congress can fix a program that hurts Nevada consumers, taxpayers, food manufacturers and their workers.**

**We Urge Members of the Nevada Delegation to Cosponsor the Bipartisan *Sugar Reform Act* ([H.R. 1714](#) / [S. 475](#))**

###

*The Coalition for Sugar Reform is an alliance of consumers, food and beverage manufacturers, trade advocates, environmental groups, taxpayer watchdog organizations, responsible government advocates, think tanks and other interests. Our objective is to reform the federal government's intrusive, inefficient, restrictive and outdated sugar program – a decades-old subsidy that has repeatedly failed to provide adequate supplies of sugar to the U.S. market.*
